\*Total investments are estimated as of July 31, 2019, and represent the value of the Fund's total investments as of June 30, 2019, plus the estimated net change in unrealized appreciation/depreciation and actual realized gains/losses on publicly traded and private securities since June 30, 2019. For the purposes of calculating the percentage of estimated total investments represented by each investment, the value of each holding is determined by either: (1) the purchase price, (2) the market value for public securities, less any discounts taken due to restrictions on the stock, or (3) the June 30, 2019, fair value of each security, as determined under procedures approved by our Board of Directors. The estimated total investments figure does not reflect net asset value because actual and estimated liabilities (such as estimated tax liabilities and performance fees, accrued vendor service fees and other liabilities) are not deducted.
